

### BRYST Emergency Action Plan Policy

An Emergency Action Plan (EAP) is designed to assist the club and its volunteer coaches in responding to an emergency on the field.

BRYST Representative and Coaches/Game Leaders are versed by the club prior to the commencement of the season regarding the EAP.

1. All teams must designate a person to oversee the emergency in advance
2. Emergency telephone numbers will be provided by BRYST to all team representatives (Police, Fire, Ambulance, Club Contacts,)
3. All teams must keep with them contact numbers for parents of all players on their roster in case of emergency
4. Any medical conditions should be noted for each participant so that they can easily be passed on to emergency responders
5. All serious incidents should be reported on an Incident Report Form
