Appendix I – C1 Team Allocation

Process used to determine # teams qualifying for C1 from each qualifying season:

1. Total number of players registered in each district and age division in 2023 divided by the total number of registered players in the Central Region in 2023 equals the District percentage in the overall registration.
2. Apply the total number of C1 spots x the District percentage to find the number of C1 spots for each respective District.
3. Round up or down formula .5
4. Districts were combined for Qualifying/C2 based on
 - Geography
 - Districts that combined in 2023 to offer the qualifying and C2 season
 - 2023 registration numbers
 - Ability to have sufficient numbers of teams to offer a C2 league

*If a District does not enter teams in a particular age division that/those spot(s) will be removed

* Qualifying host Districts may be re-aligned based on number of teams registering in 2023
